Office Action Summary

Art Unit: 2837

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

2. Claims 2-21 are rejected under 35 U.S.C. 102(e) as being fully met by Kinman.

Kinman discloses a pickup comprising upper and lower bobbins or coils 30 and 20 having permanent magnetic pole pieces 34-39 extending therethrough (see abstract and column 3). Each bobbin has a hole that the magnetic pole pieces extend therethrough. For example, see Fig. 1. Each permanent magnet pole piece is situated within holes in the upper and lower bobbins. A flat or planar non-magnetized ferromagnetic plate 22 or 41 extends between the bobbins or coils and entirely beneath the upper bobbin or coil (note flat surfaces excluding the walls). The magnetic pole pieces extend from the upper bobbin to the lower bobbin and through respective openings in the upper bobbin, the ferromagnetic plate and the lower bobbin. The ferromagnetic plates are steel. Screws secure the elements together. The holes in the planar ferromagnetic plates read on applicant's so-called "hole therethrough."

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

Art Unit: 2837

A timely filed terminal disclaimer in compliance with 37 CFR 1.321© may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 2-21 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-23 of U.S. Patent No. 6,291,759. Although the conflicting claims are not identical, they are not patentably distinct from each other because the instant claims 2-21 are broader in scope than the patented claims.

It is always considered obvious to broaden the scope of patented claims. For example, note that the instant claims 2-21 are limited to a pickup whereas the patented claims are limited to a pickup with a guitar.

5. In the first sentence of the specification, the patent number of the parent application should be provided.

6. This is a divisional of applicant's earlier Application No. 09/014,839. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

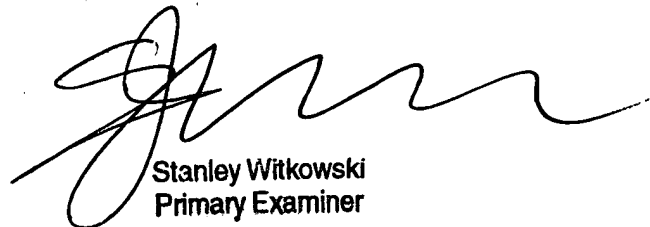

Art Unit: 2837

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
